

OBERWERK

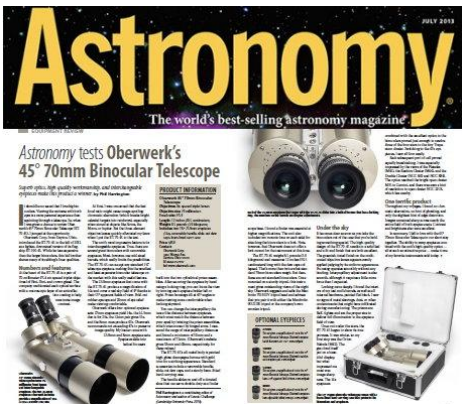

BT-70-45 in "Luna Pearl" White on Pecan Poplar TR3 Tripod

BT-70-45

frame case, and 16x eyepieces.

Recommended mounts include the Oberwerk 4000 or 5000 tripod/head, or Oberwerk TR3 hardwood tripod with Oberwerk 5000 head. Multi-reticle finder and mount is optional.

Every Oberwerk binocular is tuned to perfection prior to shipping- so even at extreme magnifications, you'll enjoy perfectly merged images.

Model	BT-70-45
Objectives	70mm triplet
Focal Length	375mm
IPD Range	58-76mm
Dimensions	L=12", W=8.25"
Weight	8.5 lbs.
Warranty	3 year limited

The BT-70-45 is the smallest and least-expensive binocular telescope on the market. At just 12 inches in length, it is approximately half the size of the 45° 100mm Binocular Telescope, and at 8.5 lbs., is just 1/3 the weight. For those with limited space, or needing easy portability, the BT-70-45 is a great choice. Of course it also has Oberwerk's signature broadband multi-coatings on every lens surface, including the Porro prisms and triplet objectives. 23.9mm (16x) fully multi-coated wide-angle (65° AFOV) eyepieces are included, and because of the industry-standard 1.25" helical focusers, your favorite telescope eyepieces can be used as well. 8mm eyepieces will provide 48x magnification in this binocular, which is the recommended limit. The built-in extendable glare shields minimize reflections. Available in your choice of "Luna Pearl" White or "Big Eyes" Gray.

Complete package price includes binocular, removable handle, aluminum-
